

This is the main menu of the game

- 1) When you select start mean 1 then

- 2) Option of one player and single player will appear
On selecting 2 player game game will start after toss and taking names of both the players
- 3) One selecting option 1 the other box will appear which contain different modes

You will select any one of them to play with computer

After selecting mode it will lead you to the toss where you selectt heads or tails by pressing 1 and 2.

```
computer chooses: 14

fareed card:

0      17      16      23      6
21      19      9      10      0
20      2      18      25      22
15      4      7      1      8
11      12      5      13      3

fareed turn:
```

When you enter any number you to mark like here i write 24 after i click it

```

Select 5: Study\longfinal\ud\Debug\longfinal.exe
computer chooses: 14

fareed card:
0      17      16      23      6
21     19      9      18      0
39      2      18      25      22
16      4      7      1      8
11      12      5      13      3

fareed turn:

```

It is replaced by 0
